### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian Dingman on January 23, 2007.

The application has been amended as follows:

- Please cancel claim 18.
- Please amend claim 1 as follow:

1. A separable electrical connector for separably, electrically interconnecting the conductors of one multi-conductor cable to the conductors of a second multi-conductor cable, comprising:

at least two multi-conductor cables, each cable having a plurality of at least partially-exposed conductors, with the exposed conductors of two of the cables in proximity to one another, at least one such cable being a multi-axial cable comprising at least two spaced coaxial conductors;

anisotropic conductive elastomer (ACE) in electrical contact directly with the exposed conductors that are in proximity to one another; and

mechanical structure that holds at least the multi-axial cable and compresses the ACE, to provide electrical signal paths between the conductors of the cables that are in proximity to one another through the ACE.

2. The following is an examiner's statement of reasons for allowance:

Claims 1-4, 6, 9-14 are allowed.

The prior art of record fails to teach the anisotropic conductive elastomer in electrically contact directly with the conductors of both flex cables.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
